

**Memorandum of Association between ISEA and SR21**

**September 1st, 2024**

This memorandum regards the establishment of a professional relationship between **ISEA-Istituto di Studi per l'Economia Applicata**, registered in Italy, and **Strategic Renaissance 21**, registered in the United States, both referred to as 'Parties' of the agreement. The agreement and exchanges are based on the non-profit registration of both institutes and no expectation of cost or funding regarding the setup of the relationship.

Since 2021 SR21 continues to organize its weekly series of '*Saturday Global Call*' coordinated by Mr. Phil Midland representing SR21, a gathering platform for professionals desiring to review and reflect on global political-economic events and writings posted from around the world.

SR21 welcomes ISEA to propose topics and professionals of interest to address a *Saturday Global Call* as appropriate and will encourage its network of professionals to submit original articles and essays for consideration of attachment to ISEA website.

ISEA agrees to host the "Saturday Global call" group promoted by SR21 in an exclusive part of its website <https://www.iseacentrostudi.com> , creating working groups, as already done, or attaching original articles and essays to its website, but retaining the right to freely evaluate the requests of affiliations and publication. ISEA will as well consider eventual bilateral agreements with the proposing professionals.
